Application of: DeAngelis et al.  
Serial Number: 10/047,541  
Filed: October 26, 2001  
For: **Felt Having Conductivity Gradient**  
Group Art Unit: 1771  
Examiner: Parker, Frederick John

**Re-Transmission of Amendment A  
(Originally Submitted August 26, 2003)**

Honorable Commissioner for Patents  
P. O. Box 1450  
Alexandria, VA 22313-1450

I, Timothy J. Monahan, the attorney for Applicants, was contacted by Examiner Fred Parker of the United States Patent and Trademark Office on November 3, 2003. Mr. Parker inquired whether a response had filed to the April 2, 2003 Office action. I confirmed that a response had been sent on August 26, 2003, along with a Request for Extension of Time. Thereafter, Mr. Parker asked me to submit a copy of the response and evidence of mailing to the USPTO, at facsimile number 703-872-9306.

In addition to a copy of the (1) Request for Extension of Time and (2) Amendment A, both of which were mailed on August 26, 2003, as evidenced by the Certificates of Mailing, I am enclosing a copy of (3) the postcard receipt, indicating that the aforementioned documents were received by the USPTO on August 28, 2003

Applicants note that a clerical error resulted in the Serial Number of the parent application (09/321,927) being used, instead of the correct Serial Number of this divisional application (10/047,541). Applicants regret any confusion caused at the

USPTO. For clarity, the correct Serial Number is written in on the copies being transmitted.

Upon discovery of the error cited above, Applicants note that an Information Disclosure Statement, submitted March 12, 2003, also listed the incorrect, parent application Serial Number. A copy of the Information Disclosure Statement is enclosed.

Respectfully requested,

November 4, 2003
